

Installation instructions for Toyota FJ FJ-4122 RockSteps

- ** Inspect RockSteps and all parts prior to installation. Contact us at 951-808-0750 for missing parts.
- ** If there is any freight damage, contact the company where you purchased the product. They will be able to process a freight claim or direct you to us if your order was shipped directly from Body Armor.

Hardware list:

8MMx125x30M hex head bolts qty. 32

8MM flat washers qty. 32

8MM lock washers qty. 32

Installing RockStep:

We recommend you have help with lifting of the Trail Steps to avoid injury or damage to Trail Steps and vehicle.

- 1 If vehicle is equipped factory steps, remove at this time.
- 2 Install step brackets to Rock Steps using M8 hardware.

- 3 Mount RockSteps to Factory Step mount locations using hardware provided. Leave loose at this time.
- 4 Lift the RockStep and align the brackets to the existing hole locations on the frame. You will see threaded nuts inside the frame rails, those are your mounting points. Leave all bolts loose until all hardware is installed. This will help with alignment. Once all hardware is installed then tight

Note: Recheck all hardware after the first couple hundred miles. It is advised to inspect the bumper and hardware periodically.
